

~ MetCom is Proud to Present ~
Battle-Ready Fire Dispatch

MetCom is excited to present another
in-service in our series,
“Mastering Fire Service Communications”

Many changes have been occurring at various fire departments including the implementation of Blue Card and changes in firefighting safety and tactics.

We will review all of these updates and discuss how fire communications centers can shape their initial call-taking, post-dispatch instructions and radio interaction to be more beneficial during working incidents.

Contact Cathy DaVisio at 720-258-8709 or
c.davisio@metcom911.org to register or for course information.
