Managing Structure Fires
From Dispatch

MetCom is excited to resume our
“Mastering Fire Service Communications” Series

This in-service will review the dynamics of structure fires from a dispatcher’s perspective. We will be providing an introduction to “Blue Card” which is largely dependent on support from dispatch and is now being adopted metro wide.

Other topics include: call taking, radio communications and the strategies & tactics our firefighters are using on scene. Communications personnel with any level of experience are welcome to attend this in-service free of charge.

Contact Cathy DaVisio at 720-258-8709 or
c.davisio@metcom911.org to register or for course information.
